28" Wheeled Upright

The 28 in. Wheeled Upright features a built-in, high-density foam structure designed to maintain the bag's shape while minimizing weight. The main compartment, with book-style opening, has a large mesh pocket and interior straps to hold down clothing. The main compartment expands 2.5 in. for additional storage. It includes a custom ID holder, and a recessed, telescoping aluminum handle. It features inline skate-style wheels in corner-mounted housings, a kick plate between the wheel housings to protect from abrasion, and reflective piping for added safety. The Wheeled Upright has dimensions of 28-17-11.5 in., and retails for \$149.99.

U.S. Ski Team Single Adjustable Ski Bag

With a convenient, front-access zippered opening and durable webbing straps to secure ski poles, the U.S. Ski Team Single Adjustable Ski Bag features a two-stage adjustment system to set the bag to a specific ski length from 150 cm to 200 cm. It is designed for efficiency, with a self-repairing nylon-coil zipper opening and a fully-padded interior to hold and protect a single pair of skis. Additionally, it includes a zippered front pocket for small items, a neoprene-padded handle wrap, and long webbing handles that can be used as a shoulder strap. The Ski Bag has dimensions of 80-8-6.5 in., and retails for \$99.99.
